

HOW TO BECOME A WELCOME HUB?

What is a Welcome Hub?

The aim of a Welcome Hub is to support the transnational mobility of composers, songwriters and repertoire by establishing a **hosting structure** in ECSA member countries. The idea is to broaden the horizons of creators and in turn generate network possibilities and enhance European creators' chances in reaching new and wider audiences. The hubs are meant to facilitate collaboration among composers and songwriters and attract diverse members with heterogenous knowledge, always within ECSA's network.

The Welcome Hub shall provide a **first contact point** and a possibility to exchange with peers. It provides composers and songwriters with information and assistance as to where one might find professional opportunities and networking activities, such as concert venues or recording studios, as well as practical information such as suitable housing, application for a temporary residence (non-exhaustive list).

Who can become a Welcome Hub?

The only requirement for organisations is to be an ECSA member and be willing to provide fellow composer and songwriters from the network with first-hand information and assistance when they arrive in your country.

What is required from me?

1. Appoint a contact person within your organisation.
2. Welcome potential visiting composers/songwriters from other countries.

Contact: *If you are interested, please contact Project Officer, Alessandra Callegari at alessandra.callegari@composeralliance.org for further information and detailed next steps.*

The first Welcome Hub in Stockholm
