### Capacity Triangle kicks off in Warsaw

## Capacity Triangle

ECSA's tailor-made training sessions focusing on entrepreneurial, copyright and digital skills of songwriters and composers were kicked-off on 27 November in Warsaw. The session was organised by ECSA in close cooperation with Związek Polskich Autorów i Kompozytorów (ZAKR) and Związek Kompozytorów Polskich (ZKP) as well as ZAIKS and attracted up to 50 music creators exchanging with experts on issues such as the complex Polish regulations regarding self-employment and how different forms of self-employment are differently taxed. It was further discussed how and when to find a good manager and what to look when signing contracts. The workshop on the digital skills focused on the new digital environment for composers and songwriters and how to navigate it best.

*'The Capacity Triangle workshops are a great way of giving composers and songwriters tools to develop their career as they are specifically designed to their needs. Especially, the workshop on digital skills is a good idea and sparked a lot of interest with the participants.'* said Marek Hojda, Vice-president of ZAKR.
